Holiday Lighting Planning

Oklahoma City & Edmond | For homeowners planning a holiday display

Professional holiday-lighting estimates should explain the design, customer-owned lights and materials, installation, seasonal maintenance, removal and storage arrangements. Confirm what is included, who handles each task and the agreed timing before booking.

01 Choose the look

A few clear choices help the team understand what you have in mind.

- ☐ Choose warm white, multicolor, red-and-green or another preferred palette.
- ☐ Mark rooflines, entrances, trees and other areas you would like lit.
- ☐ Take daylight photos from the street and of any special features.
- ☐ List your preferred display dates and any neighborhood requirements.

02 Review lights & access

Lights are customer-owned. Make the materials and property conditions part of the estimate.

- ☐ List lights you already own and any materials you need quoted.
- ☐ Share known outdoor outlet locations and access restrictions.
- ☐ Tell the team about fragile surfaces, landscaping and hard-to-reach areas.
- ☐ Confirm that proposed lights and connections are suitable for outdoor use.

03 Compare the complete scope

Do not assume that every proposal includes the same seasonal services.

- ☐ Review the agreed design, materials and installation work.
- ☐ Ask how a lighting problem is reported and which maintenance is included.
- ☐ Confirm removal responsibilities, timing and any additional charges.
- ☐ Confirm who stores the lights, where they are stored and any storage charge.

04 Get ready to book

An estimate request starts the conversation; it does not reserve an installation date.

- ☐ Send the property address, selected style and optional photographs.
- ☐ Review the total price and the exact services included before approval.
- ☐ Confirm available installation dates and how weather changes are handled.
- ☐ Keep the approved plan and office contact for questions during the season.

Get My Lighting Estimate

Start with the address, scope and preferred timing. Add optional photos.
